Announcement call for: Student research prize for Cross-PI Collaboration in Data Science in funding of PBC (VATAT) for 2020 - 2021

[MLIS](#) is pleased to inform you of the 2020 - 2021 student prizes annual for cross-PI collaboration in Data Science. This PBC-funded prize aims to promote research collaborations in the Data Sciences between two Technion PIs through joint student supervision.

The prizes are:

up to **12,000 ILS** for research Master students and

up to **15,000 ILS** for PhD students.

Minimal criteria for submission (all criteria must be met)

1. The prize is also open to students who are not Technion scholarship recipients.
2. Applicants should be Active research students, in the field of data science.
3. Applicants should be Master's degree students with an approved research topic or PhD students.
4. Students who are overseen by *two supervisors from different academic units*.
 - 4.1 Students who are overseen by *two supervisors from different fields in the same academic unit*.
 - 4.2 Students who are overseen by *one supervisor inside the Technion and one from outside* (please attach an article).
5. **Each main advisor may nominate only one student for the prize.**
6. Students who received an Excellence prize and / or an Excellence Scholarship in the 2020-2021 academic year and / or received any funding from other sources, will be able to apply to this announcement call only after receiving approval from the Graduate School.

This also applies to students who have applied for various scholarships / prizes and / or to any funding for the 2020-2021 academic year and have not received an answer / decision yet.

To find out your eligibility to apply, please contact Rinat Ben-Haim at the graduate school, by email gradsc@technion.ac.il.

The implementation of scholarships and prizes is subject to the Technion graduate school guidelines and regulations.

Document submission:

- Application form - attached
- **Main advisor's recommendation (Up to a max of 500 words).**
- send the required documents to - ml-program@technion.ac.il

Please note:

- The prize will be awarded through a one-time payment – formally awarded during a ceremony to be held at the end of the current academic year.
- **Applicants must be active students**, in good academic standing at the time of receiving the award (answers are expected to be sent during August 2021).
- **We would appreciate receiving recommendations for suitable students not later than July 31st, 2021.**
